

Where Does Chocolate Come From?

Activity:

Babble Gabble

Tell your friend or adult everything you can **remember** from last week's lesson about how chocolate is made in 1 minute!

Can you remember what the **key ingredient** is for making **chocolate**?

Did you **remember** all the steps of the process?

Now we know **how** chocolate is made we want to find out **where** these cacao trees grow!

Start

Cacao trees are grown in large plantations in tropical regions.

After 6 months, the cocoa pods are ripe and they are harvested.

The pods are split open with a machete and the cocoa beans are removed.

The beans are shipped to chocolate factories all over the world.

The shells are removed and the beans are ground into a thick liquid.

Finally, the chocolate is packaged and sent to the shops to be sold.

Finish

Do you **grow** any **fruits** or **vegetables** in your gardens or on your balconies at home?

bananas

strawberries

sweet corn

coconuts

carrots

sugar canes

rice

oranges

pears

Activity:

Can you **sort** which of these foods plants are grown here in the **UK** and which ones grow in another part of the **world**?

or

Do any of you grow any **banana**, **coconut** or **cacao** trees?

Why is this do you think?

Climate

All plants have a **climate** that they survive in best and which allows them to grow.

What is the **climate** like in England?

What sort of **climate** do you think **cacao trees** like?

cacao trees

Activity:

Whilst **watching** and **listening** to the video, **write** a list of the things that **cacao trees** need to grow. What is the **climate** like?

This is a table to show the amount of rainfall, the temperature and average wind speed for each country.

Activity:

Look through the table presented here. Can you **see** what it is **telling** us?

Using the notes you made from the video, can you **choose** the country that you think best suits the **climate** to grow cacao trees.

Can you **find** these **countries** using an Atlas?

	<u>Rainfall</u> in millimetres 	<u>Temperature</u> in degrees Celsius 	<u>Wind speed</u> 
Brazil	1,761 high rainfall	25 Very hot and sunny	3 mph.
America	715 mid rainfall	9 Cold winters and warm summers	6 mph
United Kingdom	1,220 high rainfall	8 Cold winters and warm summers	6 mph
France	867 mid rainfall	11 Cold winters and warm summers.	5 mph
Afghanistan	327 low rainfall	12 Cold winters and hot summers	8 mph

Activity:

Write a short explanation about the country you chose and why.

We were looking for a country that has:

- Low wind
- High temperatures
- No drought (high rainfall)

	<u>Rainfall</u> in millimetres	<u>Temperature</u> in degrees Celsius	<u>Windspeed</u>
