

KS1

Dear Parents/Carers

Thank you for letting us know that your child is unable to attend school. The following information outlines ways in which you can support your child's learning whilst they must stay at home.

Maths

Please go to the White Rose Home learning website and select the relevant school year and week.
e.g, Year 1 week 2

<https://whiterosemaths.com/homelearning/>

You will find a selection of teaching videos that link to the learning that is happening in school.

English

Please read regularly with your child. If you need books to read, go to Bug Club to find a variety of books that are appropriate for your child. There are follow up reading activities available for your child to complete.

<https://www.activelearnprimary.co.uk/login?c=0>

Phonics play is currently free to parents and has an assortment of games that help develop children's phonic knowledge and ability to read words by sounding them out. Please select activities and games in the phase 3 and 5 sections. There are printable resources available.

<https://www.phonicsplay.co.uk/>

There are other useful online learning tools that can be used at home.

We recommend you utilise the LGFL website where there are several key stage appropriate resources such as Busythings. Busythings provides games and printable resources for all areas of the curriculum.

Igfl home: <https://www.lgfl.net/>

Busythings: <https://www.busythings.co.uk/lgfl-login/>

BBC Bitesize includes age appropriate teaching videos and games that link to the national curriculum. Please go to the Primary Levels section. Select the appropriate page and choose the area of learning you would like your child to focus on, e.g., English, Science, Maths and so on.

Music

In our music lessons we are using a web based music resource which can be accessed individually at home. Please logon to 'Charanga YUMU' so that they can access music activities and songs to sing.

You will find the website and your child's login detail in their reading record.

We hope you and your family are well and we look forward to seeing your child back at school.

Yours faithfully

KS1 team.
