# Terrific Trees

Today we are going to be learning more about trees!

There are two types of tree,  
deciduous and evergreen.

What do you think makes a tree  
an evergreen?

(The clue is in the name!)

evergreen

# Terrific Trees

An evergreen tree keeps its green leaves all year round, even in the winter.

# Terrific Trees

A deciduous tree loses its leaves each year.

Do you know what time of year it is when the leaves usually fall from the trees?

# Terrific Trees

In autumn, the leaves on deciduous trees usually change colour and fall off.

In winter, deciduous trees usually have no leaves on their branches.

# Terrific Trees

In spring, the deciduous trees grow beautiful blossoms and new leaves.

In summer, deciduous trees have many leaves and some begin to grow fruit.

# Tree Hunt

You could go on  
a tree hunt!  
Let's look at some  
trees you might  
see.

# Deciduous or Evergreen?

Look at the cards you have been given. Which leaves are from evergreen trees and which of them are deciduous?

Look closely at the leaves on the sorting cards.

Sort the leaves into two groups.

Evergreen leaves are:

- thick
- waxy
- small
- narrow like needles

Deciduous leaves are:

- broad
- flat
- have veins running through them

# Deciduous or Evergreen? Let's see!
