Burlington's Science Selfie Challenge

This girl found so many different colours of leaves in Beverley Park that she decided to make them into a rainbow!

This girl made this amazing picture of a hamburger using leaves she had collected. Well done!

This boy drew this beautiful tree and used real leaves he had collected. We love the autumnal colours!

This boy made these amazing pictures using different coloured leaves. Well done!

This girl drew this picture and used real leaves she had collected for the tree. Well done!

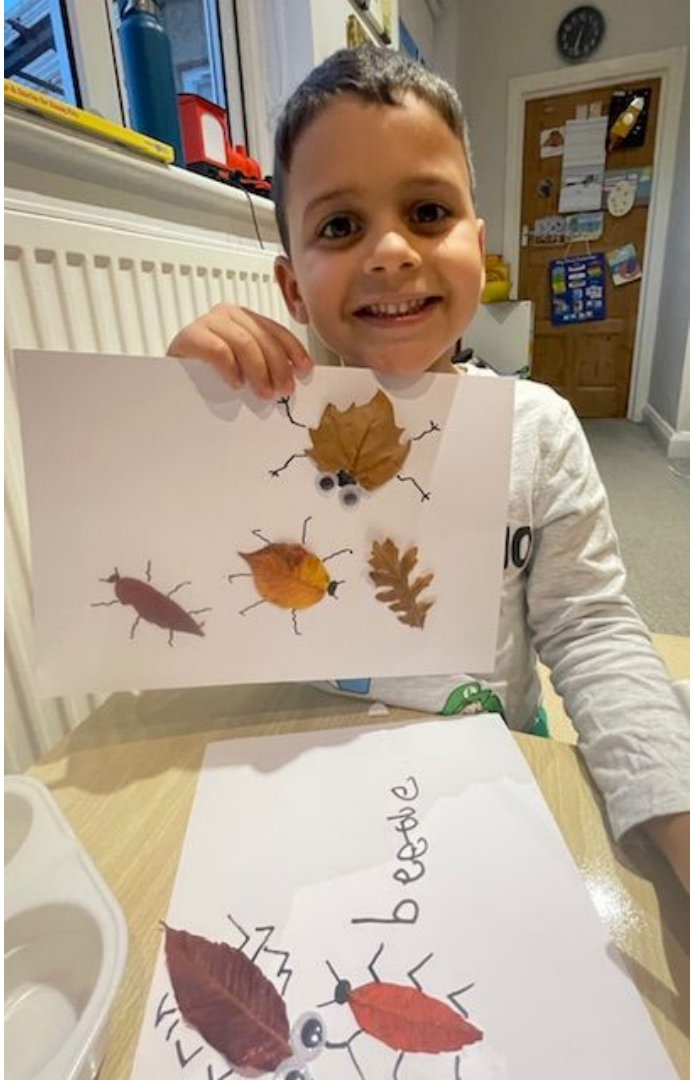

This boy collected some leaves in Nonsuch Park over the weekend and he made a lion with his favourite ones. Well done!

This girl made this beautiful picture of a squirrel and woodland from all the leaves she collected. Well done!

This boy collected some leaves on the way home from the park and made these lovely bugs with the help of his brother. Well done!

This boy explored and found different colours and shapes of leaves from Guildford Castle and picked a few of the little pears. He imagined the little pears as the eggs of the hen! Well done.

This girl made a squirrel using leaves and other woodland things for her homework. She made a squirrel because she was in Squirrels class last year! Well done.

This boy collected different leaves to make his picture - we love how you have labelled them and they are the names of our class table groups! Well done.

This boy gathered interesting leaves and made a colourful autumn tree by gluing down bits of nature he found. Well done!

This girl had a great time in her Nanna’s garden finding different plants and weeds. She then found a plant to draw and label. After that, she collected leaves and made a tiger picture using them. Well done!

This girl collected leaves and twigs (she said for the outline) from the park after football practice. She got stuck in creating her piece and really enjoyed the process. Well done!

This girl had a wonderful time doing science experiments with her older brother. They had lots of fun trying different experiments using oil and water, baking soda and vinegar, and more! Well done!

This girl enjoyed collecting leaves from the garden to make a picture of a fox because she was in Foxes class last year in reception! Well done!

Theo went for a walk in Stoke Park in Guildford and looked at lots of different flowers. He saw magnolias, daisies, primroses and some very tall orange fiery plants. He also spotted lots of weeds in cracks of pavements as well as moss around the pond. With the leaves he collected, Theo created this Autumn picture. He chose a hedgehog and cut the leaves to make the grass and clouds. Well done!

Rafi made this amazing picture of a train and used the leaves he collected as the windows! Well done Rafi!

For her school homework, this girl explored the shapes, colours, and textures of fallen leaves. Combining scientific observation with creativity, she crafted a clever fox, a cute owl using recycled rolls, and a graceful ballerina with a leaf skirt and crown. Well done!
