

# Science and Topic Year 1

Summer term 2 week of 27th April

# Last week we learnt about Polar Bears

## This week we are learning about Spectacled Bears

Watch the video of Spectacled Bears in Peru. The video is on Google Classroom.

Now watch the clip of the Paddington film. It is on Google Classroom too under English for this week..

What type of bear do you think Paddington is?

What does he look like?

Where does he live? Can you find this country on a map of the World? Which continent is it in?

Paddington opening scene\_MovieClip

# Can you answer these questions?

What is the bear called?

Why has it got a special name?

Where does it live?

What does it like to eat?

Spectacled Bear

What is the spectacled bear very good at?

What does it look like?

What special thing do the spectacled bears do to help them eat?

How do spectacled bears behave?

# Here are the answers! Can you match them to the questions?

The bear has rings on its face.

The spectacled bear lives in South America in the Andes Mountains.

The bear is called the spectacled bear.

It is an omnivore. The bears like to eat fruit and leaves but will also eat small animals like mice and rats.

It has black fur and can be 2 metres long. Its fur is black and it is thin.

It is very good at climbing trees and looking for food. They have sharp claws which are good for climbing.

Spectacle bears like to live alone.

It can build a platform in the trees to help it reach the leaves.

**Spectacled Bear**  
(*Tremarctos ornatus*)

30 cm   
12 inches 

Activity in your Orange work book. I would love to see a photograph of your work. Please send me a photo if you can on Google Classroom.

**Draw you own Spectacled Bear in its habitat (the place it lives) or colour this one.**

Think about the facts you have just read, label the bear.

What colour is his/her fur?

What is on the Spectacled Bear's face?

Where does the Spectacled Bear live?

**Extension:**

It would also be amazing to see some of your lovely writing about these bears, maybe you could compare them to the Polar Bears that we have already learnt about. Are they omnivores, herbivores or carnivores? What is special about their bodies that helps them live and eat?

# Other Topic Lessons

**Art/DT** - make your picture of the Spectacled Bear as arty as you can!

**PE** - Don Rae who helps in In Around the World Week has made some videos you can join in with. It's really for younger children but it's fun and this week the theme is Teddy Bears so it's perfect for our topic!

<https://youtu.be/5xrNeLgjVq4>

**ICT** - Don't forget you can login to

BusyThings and J2e on LGFL anytime! Have fun!
