

Sports Premium Information at Burlington Infant and Nursery School

Sports Pupil Premium 2020-21

Since September 2013, schools have been receiving extra funding for Physical Education via Sports pupil premium. At Burlington Infant and Nursery School it is used in a variety of ways to enhance sport at our school. It is our belief that Physical Education is crucial in the development of children's ability to perform a range of fine and gross motor skills, as well as maintaining healthy bodies and minds. Therefore, we are always striving to further develop the delivery of high quality Physical Education across the school.

Budget Breakdown

Income Sports Premium Academic Yr 2020-21

Total income £18,410

Expenditure 20/21

PE Subscriptions £405.75
PE Equipment/Resources £2960.86
Increase Outdoor Sports Provision
(MUGA) £14473.39
Dance workshops £570

Total

£18,410

Proposed Expenditure 2021/2022

PE Subscriptions £585.75
Travel to sports events £150
Healthy Living Week workshops £2000

Around the World Week £1400
Earthsong dance workshops £2000
PE Equipment £2500
CPD £1000
Afterschool clubs/lunch clubs -£400
MUGA provision £tbc
Total £18,410

Inclusion

We understand the importance of ensuring that P.E. is accessible to different groups and abilities.

Healthy Living Week- The school hold a 'Healthy Living Week' each year and uses sports professionals, parents and specialist trained staff from Burlington Infants to run health related workshops for children throughout the school. Children have the opportunity to take part in a wheelie race, a whole school sports day, tennis workshops and a dance workshop with Don Rae. The children are normally also invited to a 'Big Breakfast' where the staff and parents serve a healthy, sustained breakfast one morning before lessons, however this did not take place this year due to COVID.

Whole school participation

Tournaments and events- Through the KSSP, Burlington Infants have attended several Football Festivals and Multi Skills events. Children that were selected to take part in these events were identified as those that may have not had much exposure to these specific sports before, with the aim that this exposure would then help them to develop an interest in that sport and continue with it outside of school. The aim of the tournaments and festivals run by KSSP are to promote a sense of sportsmanship and love for sport. The children are presented with medals and/or certificates, honoured in a special celebration assembly at school and featured in our school's weekly newsletter and website. Opportunities are given for a child to attend these events regardless of experience as we believe that it is important for all children to gain exposure to different sports and physical activity. **Unfortunately due to COVID there have been no tournaments and festivals running the last year and a half, but we are planning to participate in as many as possible from September.**

After School Clubs

We provide clubs before and during school to support children who are developing fine and gross motor skills. Many of these clubs are free for low income families. This ensures equal access for all our children, to a range of sports including football, bat and ball, basketball, multi-skills, street dance, ballet, karate, and many more. Our ballet group work towards an end of year

performance at the summer fair every year and in the cluster concert at the Rose Theatre.

All children access PE lessons twice a week. During lockdown, PE was included in home learning activities and regular PE challenges were set. After following the Merton dance scheme previously we have now bought into their scheme for Games, Athletics, Gymnastics as well as dance, which provides all teaching staff with in depth plans, ways to assess the children and a variety of different games that they can play linked to the skills taught. **Unfortunately due to COVID these groups mostly haven't taken place this year, however Mr Wood and Mr Johnson have been able to run a basketball and hockey club in the Summer term which have been very popular. We hope to have these up and running again next year.**

Whole school participation

After school clubs provided for children eligible for PPG free of charge. This year we have introduced new clubs that teachers are passionate about, including hockey and basketball.

All children across EYFS and KS1 have regular access to challenging climbing playground equipment. We are seeking to further develop the playground this year and design multi-sports games arena that will increase sporting opportunities for all children in the school. This has been delayed due to the junior school expansion plans.

CPD

CPD for staff ensures a high quality PE provision. We identify areas for development and work on improving this. This year, we focused on implementing our new scheme, and so had CPD delivered by Merton Sports Partnership. This involved Merton coming in and delivering a series of lessons with Year 1 and Year 2 classes which teachers and other members of staff across KS1 got to observe. Our PE leaders also attend regular training and share good practice with other teachers. In 2021/22 we will receive further training from Merton, who are our PE scheme providers, allowing all teaching

staff the opportunity to see the games in action and how lessons from the scheme should look.

Impact of Funding

Impact:

Following the success of Burlington Infant School's involvement in sports, including Sports Day, Sports Relief, Healthy Living Week and the whole school Sports Day- in which a large number of parents and parent governors attended, we feel that sporting links within the school are stronger and more positive.

With the addition of a new PE scheme, all teachers are more confident when delivering PE, including teaching assistants when both supporting lessons and delivering them.

Over the year a football coach delivered training to children who had not had much experience with football before. This allowed these children to become more confident with football and show an interest that continued long past the tournaments.

Being a part of the KSSP has allowed the PE lead to regularly meet and share ideas with other schools.

Children are more aware of how to live a healthy lifestyle, including the correct foods to eat and the importance of exercise.

Links with the Community

We work closely with other local schools and take part in inter-school competitions, tournaments and swimming galas.

Although this is usually true, this year we have not been able to take part in any activities with other schools due to Covid-19. We are definitely looking forward to being able to do this again as it has been so popular with children in previous years.

At Burlington Infants we have a range of sports and activities that are available to the children through after school clubs. These clubs are run by local sportsmen and women who provide specialist knowledge in their sports. **We would really like to start these extra clubs after school again that are run by experts in their field however we have had an excellent response to the clubs**

we have been able to offer in the summer term which have been run after school by class teachers.

Each year we invite the parents to our annual Sports Day and encourage them to join in the races and games. Parents with particular skills are also invited to deliver workshops during Healthy Living Week e.g. tennis, yoga.

Unfortunately parents could not attend Sports Day this year but we did still have a parent come in to deliver a tennis workshop for Year 1.

Sustainability

We have a good selection of PE equipment to ensure that the children have up to date and modern facilities to use and we seek teacher feedback on an annual basis on what new equipment is needed to support the learning taught during PE lessons.

We have provided a range of equipment for use at playtimes and the lunchtime staff ensure that the equipment is used appropriately. We have a selection of outdoor team games, football and basketball equipment, and the children use a rota to take turns on our climbing frame. Zoned areas in our playground ensure that children's games are supervised and children are supported to develop good team skills, cooperation, stamina and specific skills for each sport.

We hope that the steps we have taken will ensure that the children maintain a positive and motivated attitude towards physical education, as well as encouraging a strong sporting ethos that continues throughout the school and their lives.

Provision

In the Foundation Stage, each class is allocated one session of PE. However there are many opportunities for physical development throughout the day, inside and outside of the classroom, with the added addition of a high quality outdoor provision, ensuring and supporting physical development in line with the EYFS. In Key Stage One, each class is allocated two sessions of PE – one in our large hall and one in our small hall. During the transition phase in Year one, children can take part in physical activities in the outside area too. Our provision is boosted by the extra-curricular activities that are on offer for children throughout the school. Children have the option of taking part in one of our many after school clubs which include Football, Tennis, Dance, Hockey, Netball and Multi Skills. Furthermore, with our membership to the Kingston Schools Sports Partnership (KSSP), we are provided with support and guidance from Emma Watkins, School Games Organiser, and invited to participate in inter-school competitions within the borough.

Once again, due to COVID this has changed slightly this year as the school week has had to be timetabled differently so we have only had one session of PE per class each week. Although this is not ideal through online training sessions and meetings with other PE coordinators we are aware that this is the case for most schools in the borough.
