

Dear Parents and Carers

Thank you to all the adults and children for your hard work in learning the maths facts for our weekly 'fluency quiz'. Next term we are asking the children to become more fluent in solving multiplication facts.

$2 \times 2 =$	$9 \times 5 =$	$7 \times 2 =$	$3 \times 5 =$
$1 \times 5 =$	$3 \times 10 =$	$2 \times 5 =$	$9 \times 2 =$
$6 \times 5 =$	$3 \times 2 =$	$4 \times 5 =$	$2 \times 10 =$
$8 \times 2 =$	$5 \times 5 =$	$8 \times 5 =$	$4 \times 2 =$
$6 \times 10 =$	$7 \times 10 =$	$4 \times 10 =$	$9 \times 10 =$

Every week the children will be asked to answer a selection of calculations in a time limited 'quiz'. The results of this activity will be sent home so that parents can monitor how well their children are progressing. Please ensure that the children practise the calculations frequently as this will help develop fluency in knowledge and their ability to answer questions speedily.

Here is an example of the activity children will be asked to complete every week:

$7 \times 2 =$	$3 \times 5 =$
$2 \times 5 =$	$9 \times \underline{\hspace{1cm}} = 18$
$4 \times 5 =$	$2 \times 10 = \underline{\hspace{1cm}} \times 5$
$8 \times 5 =$	$4 \times 2 =$
$4 \times 10 =$	$\underline{\hspace{1cm}} \times 10 =$

Many thanks

Lyndsey Ellis

Maths co-ordinator
