

Dear Parents and Carers

Thank you to all the children and parents for their hard work. All the teachers have been so pleased with the work that has been uploaded and at the level of effort we have seen from the children.

Please look at the suggested timetable that includes a brief description of each task. The slides provide more detail and explain the learning options. We have highlighted the tasks which are to be uploaded. This week there are 2 for maths, 2 for English and we would like you to choose a topic piece to be shared with us. Please submit work as soon as it is completed. Work can either be uploaded onto Google Classroom or Tapestry. If you submit work on Google Classroom please remember to click on 'hand in' so that we know to respond to it.

We are continuously looking at ways to provide the best learning for the children so thank you to all the parents who completed the Home learning questionnaire. After looking at the feedback we have decided to upload work on a Friday afternoon as this will give parents the opportunity to look through the learning and become familiar with resources. Again we have included some videos - we hope you find these helpful and they help to engage the children in their learning.

We will also be having 4 assemblies each week provided by Mrs Yay walker, Mrs McEvoy, Mrs Docwra and Mrs Williamson . These will be uploaded throughout the week onto Google Classroom.

Please remember that if you need paper copies of the learning pack, email the office on admin@burlingtoni.org.uk and we will arrange for you to come and collect a copy. We have also provided optional exercise books for parents to collect if they need them. These can be collected from school on Monday.

Please remember to use the BugClub website if you do not have reading books at home and if your child enjoys music they can access the Charanga music website. Log in details were shared with parents but if you need this information again, please message your child's class teacher. We would also like to share the BookTrust link that takes you to a selection of books that are free to read or listen to.

Please do not hesitate to contact the school if you have any questions. We will do all we can to support you and your family at this difficult time.

All the best

Year 1 team

Monday	Tuesday	Wednesday	Thursday	Friday
English Children learn to add the suffix ed and begin to understand what is the past tense. 30 minutes	English Children learn what a question is. Sort sentences into questions and non question sentences. 25 minutes	English Children write questions about a mystery character. 30 minutes	English Children read and discuss part of a story and record what they know and what they think about a character. 30 minutes	English Write a speech bubble. 40 minutes

Music PSHE Looking at the small steps that are required to reach our goals. We can then consider what small steps we must take in order to meet our resolutions that we made in week 1.	Science This week we start a new science topic - weather! Children will look at different weather types and record these. Children will also be asked to write a question or questions they would like to ask about weather.	Computing In ICT we will be looking at the quickest and easiest way to search for images...On the internet! We will be looking at ways to stay safe on the internet. We will be searching for images of different weathers to tie in with Science.	History This week we are looking at the Wright brothers, we will try to guess what they might have invented and what it looks like/is made out of. We will then compare their early invention to today's counterpart. We will then make our own paper airplanes.	DT/ART We are going to make our own windmills! This will tie in to science and help us when monitoring wind next week.
