

# Year 2 - Autumn 1 - Presentation Skills

We have been learning how to make presentations on the computer. The presentation skills your child has been learning are to add new slides and change the layout and to add and format text and images. If your child is unable to use a computer to make a presentation, they can make one using paper, using a piece of paper for each slide. Here is a suggested task that will help reinforce this learning:

1. Using some images found online or your own drawings, create a presentation about a topic of your own choice - e.g. Animals, Toys, Space, Bears, Plants or Pirates/Explorers
2. For each image you include, use one slide, and write something about it - this could also be text or facts found online.
3. Present your presentation to a family member or friend.

To be posted as an Observation on Tapestry titled 'Computing Home Learning'.

# Year 2 - Autumn 1 - Presentation Skills

You may have applications like Microsoft PowerPoint, Apple Keynote, Google Slides (free with a gmail address) or you could use JiT through your LGFL account which the children are familiar with using at school.

The image displays a desktop environment titled "j2launch" for Burlington Infant and Nursery School. The desktop features a search bar, a trash icon, a plus sign, and a library icon. A grid of application icons includes "my files", "myUSO", "shared files", "j2office", "j2e5", "JiT" (circled in blue), "j2data", "j2code", "j2blast", "j2review", "j2write", "j2pdf", "j2stars", "j2homework", "j2webby", "j2bloggy", "j2e", "j2measure", "camera", "upload", "help", "just2easy.com", and "Keyboard Skills".

Below the desktop icons, a presentation software window is shown. A blue arrow points from the "JiT" icon to the window. The window has a "SAVE" button on the left and an "Add page" button on the right. A blue circle highlights a small icon in the top right corner of the window's title bar. The presentation content includes a slide with a rocket icon and a text box that says "write about your work".

Here are some prompts the children follow at school:

1. Turn your computer and screen on. 

2. Log on

3. Click on the Internet Icon - Chrome 

4. www.lgfl.net

5. Click on 'Login'

6. Type in your Username and Password and Enter

7. Type 'jit' in the search bar.

8. Click on the Icon for JiT

JiT - j2e Infant Tools  
The EYFIS tools from the makers of the j2e Tool Suite

9. Launch Resource

LAUNCH RESOURCE

[www.j2launch.lgfl.net](http://www.j2launch.lgfl.net)

10. Normal USO Login

11. Click on the JiT5 Icon
